## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 19, 20 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding claims 19 and 20, the phrase "and/or" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "and/or"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).
4. Regarding claim 25, the phrase "optionally" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).
5. Claim 25 recites the limitation "the intermediate element" in line 2. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3727

7. Claims 1-5, 11, 12, 14, 17-22 and 25-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Fahl et al. 6,053,381.

Fahl teaches a backpack comprising a receiving container 2, and a carrying device 20 comprising connection elements/pulling elements 20, 22, and channels 6 with a low friction surface 30.

8. Claims 1-5, 11-13, 15, 16 and 21-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen 4,194,602.

Allen teaches a bag assembly comprising a receiving container 10, and a carrying device 12 comprising connection elements/pulling elements 12c, 12d, shoulder straps 12a, 12b, and channels/turning elements 14.

9. Claims 1, 2 and 6-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Carlson 5,806,740.

Carlson teaches a backpack comprising a receiving container 607, and a carrying device 601 comprising connection elements/pulling elements 718, and deflection elements 714-717. See in particular figure 3A.

#### ***Allowable Subject Matter***

10. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
